
E. coli Features
-oriV: high copy origin
-Amp^r: Ampicillin resistance (100 µg ml^{-1})

S. aureus Features
-pE194ts: temperature-sensitive origin
-counterselection: anhydrotetracycline-inducible (100 ng ml^{-1})
-Cm^r: chloramphenicol resistance (10 µg ml^{-1})
-TIR: optimized RBS
-sGFP : encodes superfolder GFP
-TN up/down: homologous DNA to *bursa aurealis*
